

EPS Corporation (EPS) is a **Woman Owned Small Business (WOSB)** with the capacity, quality and business processes to support customers on a worldwide basis.

Since 1983 EPS has been providing Systems Engineering and Rapid Prototyping Solutions; Training, Logistics and Fielding Solutions; IT, Software and Cyber Security Solutions; and Network and Communication Solutions that support the Department of Defense, civilian agencies and commercial clients worldwide. **The four pillars of EPS Corporation are \*Field Services, \*Information Management Services, \*Mission Support Services and \* Network Solutions.**

Enabling the Warfighter is the cornerstone of EPS Corporation's business. **We support the United States Army, Navy, Air Force and Marine Corps, in addition to federal and state agencies and commercial customers.** We are committed to the mission success of our customers and we are proud to be a company that our customers trust.

EPS employees continue to help defense and intelligence customers deliver mission-critical capabilities, working alongside service members in numerous countries to perform such work as in Communication, Day-to-Day Support Operation, Technical Training, Global Cyber Security Engineering, Data and Systems Analysis and Integration etc.

Veterans add tremendous value to any organization, but their talent, experience, and commitment make them particularly well-suited for EPS, where we employ military veterans and military spouses at every level of the organization, from staff to senior leadership. Our military hiring and development efforts are continually recognized as a mutual win: providing veterans with rewarding careers while the company and its customers benefit from their proven leadership, values, job skills, and work ethic.

Whatever may be your experience level, we provide you the opportunity to build on your education and to start your career in an exciting, dynamic company that continually drives innovation and provides distinction and excellence.

We are continuously recruiting for candidates with skills in

Project Management	Cyber security Analyst	Enterprise architect
Network Engineers	Mechanical Engineers	Communication Engineers
System Administrators	Network Administrators	Database Administration
Intelligence Analyst	Helpdesk Analyst	Logistics Analyst
Data Analyst	System Analyst	Network analyst
